

NO BEACH? NO PROBLEM!
Make sandy beach art with sandpaper.
And...there's nothing to shake out of your bathing suit!

Materials:

- Sandpaper (preferably a variety of textures to create 3-D effects)
- Crayons

Optional to Create More Elaborate Designs:

- Scissors
- Double Thick Two-Sided Tape or Glue
- Glitter
- Decorations (shells, beads, small rocks, etc.)

Directions

First, draw:

Using a crayon draw your picture on a piece of sandpaper.

Next, color:

Color in your drawing.

Then on another piece of sandpaper (Optional):

Using a crayon to draw some shapes to attach to your drawing. Maybe draw a beach ball or a sun or a rocket ship or a clown or eyebrows for someone's face. It's your drawing so you decide what you want to attach.

Note: Attaching shapes with different sandpaper textures and attaching with double thick two-sided tape helps create a 3-D effect.

Finally, put it all together!

- Cut out the shapes.
- Attach them to your picture.
- Admire your work!
