

Materials:

- 2 Paper Plates
- Clear Packing Tape
(scotch tape can be used but takes a lot longer)
- Scissors
- Markers, Stickers, Crayons, etc

Directions:

First decorate:

- Decorate the outside and inside edges of your paper plates.
- Cover the inside and outside of both plates with packing tape. (This takes a while. Be patient and make
- sure everything is covered. It's fine to overlap the tape a little.)

Next cut:

Cut out the inside circle of each plate.

Finally, put it together!

- Stack the plates on top of each other so it's like a clam shell.
- Tape the outer edges together. This time using scotch tape may work better.
- Your frisbee, oops flying saucer, is ready to fly! Go outside and have fun with it!

Storyologist Idea

On a separate piece of paper write what you imagine about an alien.

Some ideas to think about:

- What planet did the alien come from?
- Why did the alien come here?
- What does the alien think of earth?
- Did the alien bring anything from home?
